

## Card Personalization and Mailing Systems

### Our Mission

Matica Americas is your source for complete card personalization and mailing systems. We are committed to providing end-user and dealer/distributor customers with quality hardware, software, service, parts, supplies and world-class customer support.

### Matica Americas Overview

Matica Americas, located in Eden Prairie, MN, USA offers the complete range of Matica card personalization and mailing systems and provides the same sales, service, parts, supplies and customer support that have made Matica the second largest worldwide producer of card issuing and mailing systems.

Matica Americas serves customers throughout the United States, Canada and Latin America. With sales staff, systems integrators, customer service, trained systems engineers and technical support specialists located throughout the Americas we offer complete consultative sales with a focus on your organization's business needs. In addition, on-site and depot service programs are available. We strive to provide a full service operation with a strong emphasis on the "local" availability of equipment, software, parts, supplies and technical support.

With over 19.4 billion cards manufactured globally in 2007 and a forecast that this number will rise to 29.2 billion cards by 2010 there is a strong market in place for our card personalization and mailing systems.

## Our Products

### Matica Central Issuance Systems

When high speed issuance is required, reliability and flexibility are the keys to success. Matica's Digicard products meet and exceed these requirements. The Digicard systems are completely modular, can print, encode and emboss over 2000 card per hours and are field upgradeable.

### Matica Mid-Range Systems

For service bureaus, financial institutions, advanced healthcare systems, large-scale retail loyalty programs or telecommunication and telephone companies, a centralized card issuance system is needed. Matica's products provide mid to high level production volumes, precise control of data management, multiple card types and, if desired, safe and accurate card packaging.

### Matica Mailing Systems

Having a centralized card production system is only one piece of the puzzle. Matica provides the card sorting and mailing systems that you need to get the card from production to the ultimate user. These mailing systems can be used as stand alone mailers or integrated into any of the of the mid-range to high speed Matica card personalization systems.

### Matica Desktop Card Personalization Systems

Matica offers a variety of desktop systems to meet your needs quickly and securely.

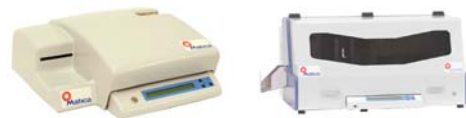

When volume, cost and size are factors, Matica offers compact and reliable embossing and thermal printing systems with the option of magnetic stripe encoding and smart card personalization. These desktop solutions meet the needs of medium and small service centers for instant issuance card projects.

### Matica Metal Plate Embossers

Matica metal plate embossers are used all over the world for a variety of industrial applications. With flexibility in production and designs to meet the high productivity requirements, Matica offers the right metal plate embossing solution to satisfy your needs.
